Summary

As a computer engineering student with a focus on software development, I have acquired a foundation in programming languages such as C/C++ and Python.

My academic journey has centered around software design, coding, and practical application in projects.

Eager to contribute my passion for software innovation, I am seeking opportunities that allow me to excel and make impactful contributions in a dynamic environment.

Education History

Bachelor in Computer Engineering

Institution: University Of Istinye

2021 - Current

[Degree] Undergraduate

Education In Computer Science

Institution: École 42 Istanbul

2022 - 2023

Relevant Skills

- Python
- C/C++
- HTML/CSS/Javascript
- Database systems, SQL
- Machine learning
